DETAILED ACTION

Allowable Subject Matter

Claims 1-28 and 32-34 allowed.

The following is an examiner's statement of reasons for allowance: The new claims 32-34 are allowable, essentially for the reasons given by applicants in the Remarks accompanying the amendment. By claiming the invention as a chart, rather than a graphic display, applicant has claimed a concrete and tangible object, thus overcoming the previous rejections of claims 29-31 under 35 USC 101. As noted the invention of claims 32-34 is an article of manufacture. Claims 32-34 are also allowable because they are not disclosed or suggested by the prior art. While various dental charts are known, a chart having the features claimed, which allows the user to mark them and track dental information in the manner recited, is not obvious in light of the prior art. The indicia on the chart is also considered to have a functional relationship with the underlying substrate, in that it is adapted to be marked by a user for recording data, and thus is allowable under *In re Gulack*, 217 USPQ 401 (CAFC 1983).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
